- For ages 4-8 years

620-220	KS-CD20, Red/White
---------	--------------------

**more info**

The company that produced Colson bikes was started in 1885 by Winslow L. Fay of Elyria, Ohio. His first product, a dirt scraper to smooth the roads for cycling, was soon followed by an adult tricycle which was marketed under the "Fairy" name. Fay sold the company to Arthur Garford in 1891, who in turn hired a salesman named Fred Colson. By 1917 Fred Colson was President of The Colson Company and had created a line of bikes, scooters and trikes which were sold to hardware and department stores.

Kool-Stop International now offers four styles of the Colson replica tricycle drop-shipped through Wilson Bicycle Sales.
